

Questify User Manual

A cheerful guide for every player, created with friendly steps and bright highlights.

Perfect for mobile use, school projects, and family fun.

Table of Contents

1. Getting Started 3

2. Main Features 4

3. Settings 5

4. Notepad 6

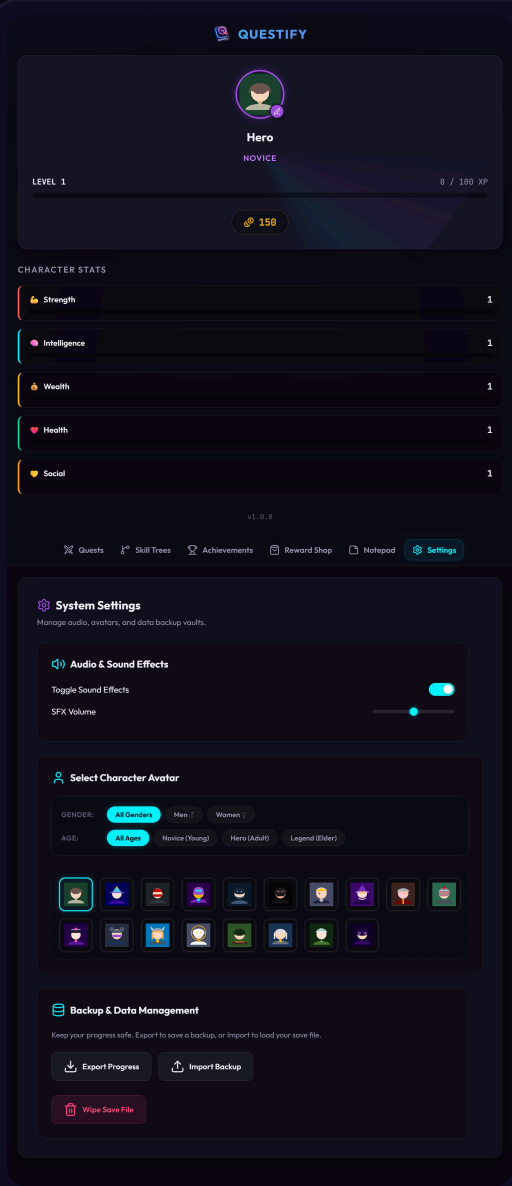

5. Troubleshooting 7

Tip: Print this manual in landscape mode for best layout.

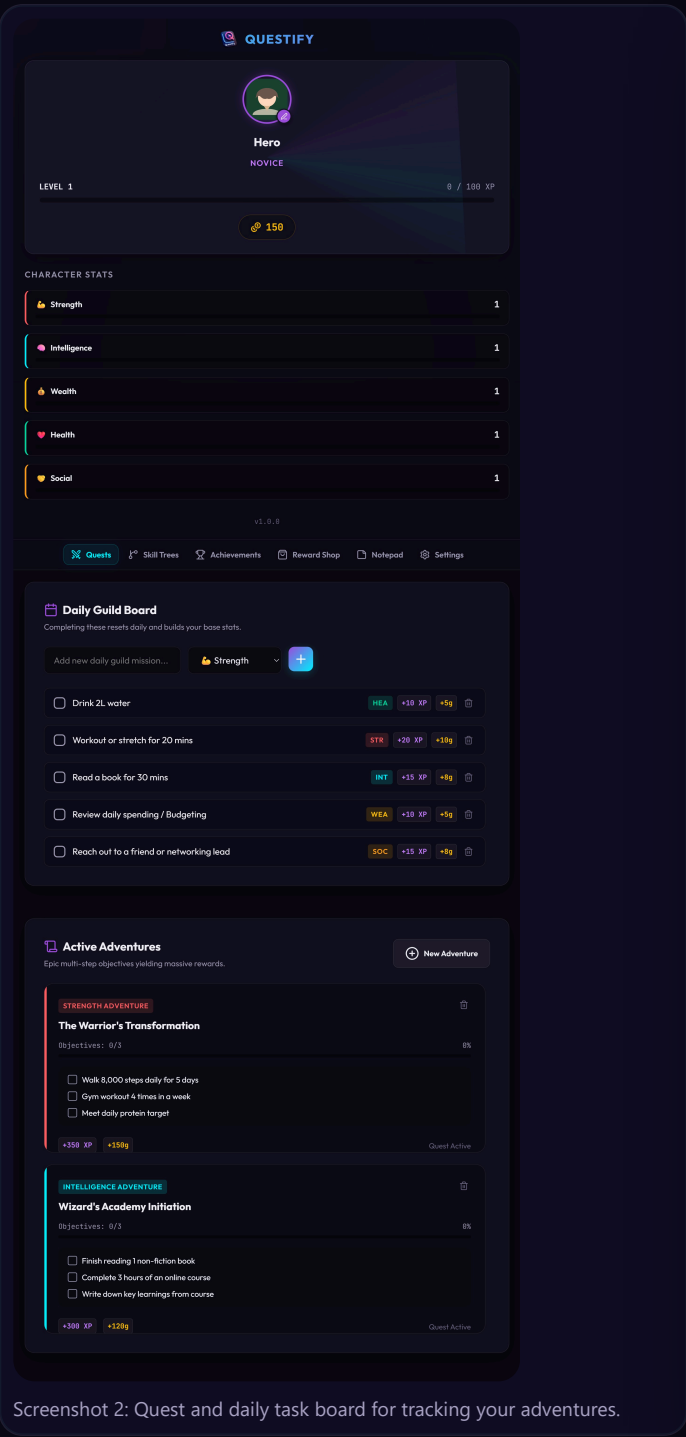

Getting Started

- 1 Open Questify and meet your hero profile.
- 2 Tap your avatar or name to personalize your character.
- 3 Check your Level and XP bar to see how close you are to leveling up.

Note: Your character stats update as you complete daily quests and adventures.

Screenshot 2: Quest and daily task board for tracking your adventures.

Main Features

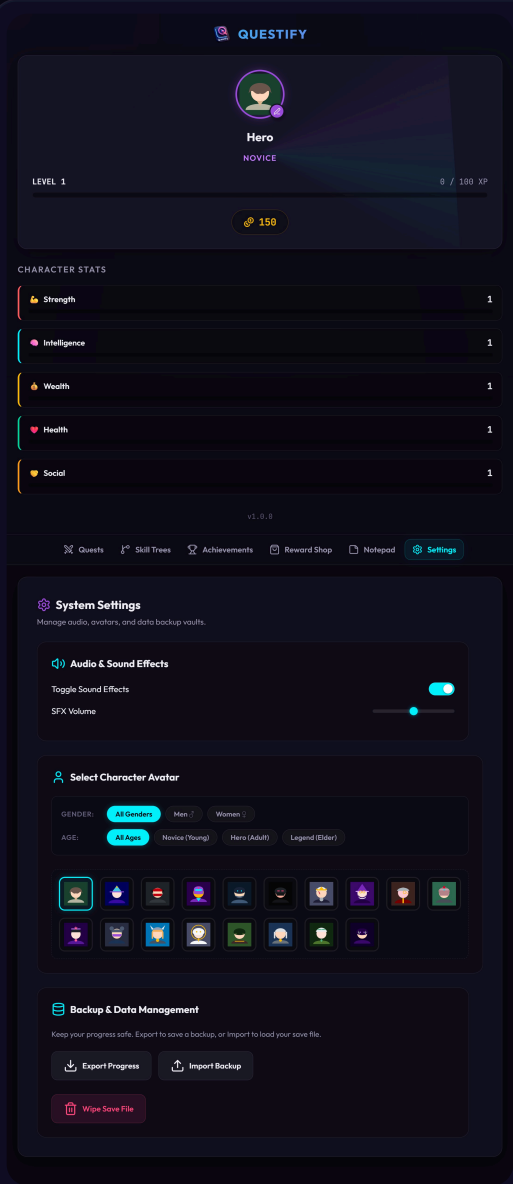

- 1 Select the Quests tab to see your daily missions and active adventures.
- 2 Use the green buttons to add a new daily mission or start a new adventure.
- 3 Complete tasks to earn gold, XP, and power up your character.

Tip: Focus on small daily wins to grow your game progress steadily.

Settings

- 1 Open the Settings tab to manage sound, avatars, and backups.
- 2 Turn sound effects on or off and adjust the volume to your comfort.
- 3 Pick your favorite character avatar and save your style.

Important: Back up your progress before wiping save data.

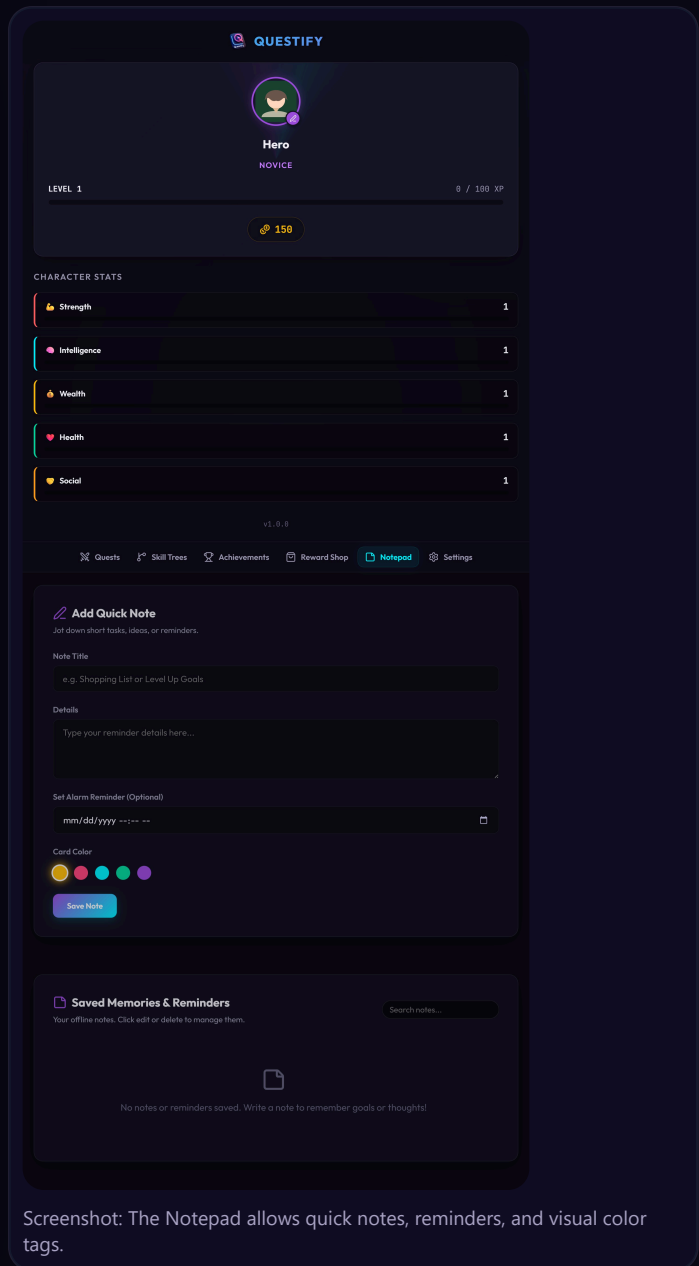

Screenshot 3: Settings page for customizing sound, avatar, and backup options.

Notepad

- 1 Open the Notepad tab to jot ideas, tasks, or reminders.
- 2 Enter a title and details, choose a color, and tap **Save Note**.
- 3 Use the search bar to find notes, or edit and delete saved entries anytime.

Tip: Set an alarm reminder on a note to get a gentle nudge later.

Screenshot: The Notepad allows quick notes, reminders, and visual color tags.

Troubleshooting

- 1 If the app looks stuck, refresh the page or reopen the browser tab.
- 2 Check your internet connection if any data features don't load.
- 3 If you lose progress, use the backup tools in Settings to restore your save.

Reminder: Keep copies of backups in a safe place.
